PROFITS FROM PLANTING STOCK

You can make money from your back yard garden. Planting stock of Gladiolus bulbs in sizes 3, 4, 5 and 6 grown in your own home garden will give you large bulbs in the fall which may be sold in your local community at a good profit. Many people in these times are finding such small plantings a source of additional and welcome income. Nos. 3, 4, 5 and 6 bulbs purchased at the low prices in this list will yield a high percentage of profit from one season's growth, from no great investment and from pleasant work in your garden at home or on a city lot.

We highly recommend such sorts as Mrs. Leon Douglas, Mr. W. H. Phipps, Longfellow, Dr. F. E. Bennett, Nancy Hanks, Mrs. P. W. Sisson, Belinde, B. L. Smith Giant Nymph, Golden Measure, Iwa, John T. Pirie, Mrs. F. C. Peters, Pfitzer's Triumph, Titanic, Violet Glory, William G. Badger, Youell's Favorite and a number of others.

Small bulbs in sizes mentioned, bought at prices in our list, will yield you large bulbs in the fall, many will bloom and give possible added profits from cut flowers. A little work among your neighbors and friends will do the rest. The large bulbs produced, when sold at prices asked by many retail growers, will give a high percentage of profit. **You can rely on Upjohn's planting stock. Make your back yard pay.**

The medium bulbs a combination of the Nos. 3 and 4 sizes. If you have not tried the medium sized bulbs you will be amazed at what splendid blooms you get. In some varieties they actually furnish a superior bloom to those of the larger size if well cared for. You get twice the number of medium sized bulbs for the same price. For exhibition blooms the larger sizes are considered a little better but for ordinary garden and cut flower uses the medium sized bulbs have many advantages including the extra amount of bulbs and blooms had for the money.
